Table of Contents

Chapter 4 - COLA - Computational Logic with Applications

Chapter 5 - EAC - Emotional and Affective Computing

Chapter 6 - GAI - General Artificial Intelligence

Chapter 7 - IROBOT - Intelligent Robotics

Chapter 8 - KDBI - Knowledge Discovery and Business Intelligence

Chapter 9 - MASTA - Multi-Agent Systems: Theory and Applications

Chapter 10 - SSM - Social Simulation and Modelling

Chapter 11 - TEMA - Text Mining and Applications

Chapter 12 - WNI - Web and Network Intelligence

Table of Contents - Springer LNAI 5816

Chapter 1 - AITUM - Artificial Intelligence in Transportation and Urban Mobility

Chapter 2 - ALEA - Artificial Life and Evolutionary Algorithms

Chapter 3 - CMBSB - Computational Methods in Bioinformatics and Systems Biology

Chapter 4 - COLA - Computational Logic with Applications

Chapter 5 - EAC - Emotional and Affective Computing

Chapter 6 - GAI - General Artificial Intelligence

Chapter 7 - IROBOT - Intelligent Robotics

Chapter 8 - KDBI - Knowledge Discovery and Business Intelligence

Chapter 9 - MASTA - Multi-Agent Systems: Theory and Applications

Chapter 10 - SSM - Social Simulation and Modelling

Chapter 11 - TEMA - Text Mining and Applications

Chapter 12 - WNI - Web and Network Intelligence
